A LITTLE BIT ABOUT ME

Candidate with strong software development skills and experience in creating Flutter applications, seeking an AI Engineer role to apply abilities in modeling and testing AI software, strategy recommendation, and team collaboration.

EXPERIENCE

Software Developer

FEB-2023 to MAY-2023

- Worked on the development of the Jewelline E-commerce Application
- The application offers a wide range of jewelry items for users to browse through
- Provided high-quality images and detailed descriptions of each item to help customers make informed purchasing decisions
- The application served as a comprehensive platform for all jewelry needs of the users
